5/15/2018	7	5
6/19/2018	3	2
7/17/2018	25	6
8/21/2018	8	4
9/18/2018	14	12
10/16/2018	2	1
11/20/2018	9	7
12/18/2018	14	4

UNUSUAL OR SIGNIFICANT EVENTS

With the introduction of a new web-based version of the RedCheck violation reviewing software, officers are now able to log in to the program on any PC, iPad or tablet to review real-time video of the intersection for incidents under investigation. Officers also now have the ability to download the video for evidence. Throughout 2018, the Investigations Section used this new software package to identify suspect vehicles.
